ABOUT ME

Driven and ambitious frontend developer with a strong foundation in HTML, CSS, and JavaScript. Passionate about creating intuitive and visually appealing user experiences. Eager to learn and adapt to new technologies and frameworks. Seeking opportunities to contribute to innovative projects and grow as a professional in the dynamic world of frontend development.

EDUCATION

Biju Patnaik University, Rourkela

-MCA (Computer Application) CGPA 8.89

07/2020 – 08/2022

Cuttack, Odisha

Utkal University, Bhubaneswar

-Graduation (Mathematics) CGPA 7.08

05/2016 – 06/2019

Bhubaneswar, Odisha

WORK EXPERIENCE

Fullstack Developer (Daya Consultancy Bhubaneswar)

08/2024 - Present

- Developed fullstack web applications using Node.js, React, Express, and MongoDB, with file handling through Multer and caching with Redis. Collaborated on optimizing performance and building scalable solutions.

PROJECT

E-commerce [Github-Link](#) [Live-Link](#) (React Js,Tailwind, React-hook-form,redux-toolkit, API) 06/2024

- The fully functional E-commerce app enables users to perform standard e-commerce tasks such as order placement, cart management, quantity adjustments, order status checks, and email receipt generation. Additionally, it includes an admin system allowing administrators to add products and manage order statuses.
- Tech Stack: Built with ReactJS and Tailwind CSS for interactive UI. Utilized Redux Toolkit for state management and API handling. Integrated a notification system for enhanced functionality.

Feedback System [Github-Link](#) [Live-Link](#) (Next Js,Next auth, Gemini, Mongo Db,Resend) 09/2024

- Frontend: Next.js with NextAuth for secure authentication. Database: MongoDB managed with Mongoose ORM to handle Robust authentication system. Implemented email and password-based user registration with two-step verification.
- Features: Enabled users to store and edit their reviews within the app. Utilized AI-powered Gemini to generate diverse and insightful reviews

Admin-Dashboard [Github-Link](#) [Live-Link](#) (React JS ,Sass,Typescript,Chartjs,react-table) 02/2024

- Created a fully functional admin dashboard for stock tracking, transaction monitoring, and user management. Utilized tabular and chart data for comprehensive visualization. Enabled users to add new products and adjust product quantities.
- Tech Stack:Built with ReactJS and Sass for interactive UI and responsiveness, also implementing TypeScript for type safety. Integrated Chart JS for data representation and utilized react-tables for record tracking.

TECHNICAL SKILLS

Languages: React JS, TypeScript, HTML, CSS, JavaScript, Node js, Next JS, Express js, MongoDB, MySQL.

Developer Tools/Platform: Git, GitHub, Docker, Redis, AWS, Chakra UI, Redis, Postman, Firebase, VS Code.

Frameworks: Bootstrap,Redux/ToolKit, Scss, Redux, Zustand, Tailwind, AppWrite, Shadcn/ui, Next-Auth, Rest.

Coursework: Data Structure and Algorithm, OOPS concepts, full stack development at Coding Ninjas.

CERTIFICATIONS

Core Java Excellence with **DSA** at **Coding Ninjas**.

FrontEnd With excellence at **Coding Ninjas**.

React Js With Excellence at **Coding Ninjas**.

BackEnd on **NodeJS** With Excellence at **Coding Ninjas**.

NPTEL clear on **IOT, Cloud Computing** and **AI**.

Intern on **JAVA** at **PieInfocom**.
